It is simply amazing! The writing and the images are top notch ...

By Shaun Fergus

I just received a used copy of this book. It is simply amazing! The writing and the images are top notch and cover a wide range over Kiefer's long creative history. I have been waiting to find an affordable copy of this book to add to the collection and am so happy to have found a hardbound version of this heavy tome.

To verify for others, the soft cover book listed as this one is completely wrong, They are 2 completely different books (I own the soft cover version listed and can confirm this... it is also a good book)

If you can find an affordable copy I highly recommend acquiring it.

Comprehensive and deep review of this pivotal artist.

By C. MERRITT

This is a deep, thorough and comprehensive look at much of Keifer's oeuvre. It covers different periods of his work and reveals the shared threads of each phase. This book is one of the better ones that I've physically seen, as it has many pages of well-printed photographs and documentation. The text is well written and cogent.

As for the artist, he's compelling and profound. What more can be said?

Paper back edition inferior

By mar

I saw this book in the hard back edition in a shop and came to Amazon to buy it. Whilst trying to purchase the hardback version the system automatically took me to the paper back edition which I bought thinking it was teh same book with an updated cover but in softback. Big mistake. It is inferior to the hard back edition as it has not got many of the images I really wanted. Looking more closely later I saw it has about 100 less pages. Don't be fooled into buying the paper back edition I was very disappointed.
