GREAT BOOK ON CALLIGRAPHY FOR BEGINNERS !!!

By G. M. C.

What a beautiful book on Calligraphy ! ! It is pretty thorough, especially for the beginner. To get started, all you need is a pen, ink and paper. From there, it covers choosing a nib or nibs, that are inserted into a holder, that hold your ink. Of course, you can also use a fountain pen. It even covers erasers. As for paper, this is a never ending quest for calligraphers. Of which, you must consider the finish, characteristics of the paper, rag content, machine made or handmade-the list goes on and on. It is one of the most important choices the calligrapher can make. The author, Don Marsh. starts you off on basic strokes and then takes you into the "alphabets", i.e. the type of lettering you are going to use. Also, the parts of a page: margins, layout, alignment, multiple columns, line length & centering. At the back of the book, he has provided 22 pages of various spaced slanted lined paper on which to practice by photocopying them. A good book overall.
