I found this book to be fascinating. It's one of those books that you just can't put down. To read about Scott's emotional stress and try to understand how he's been able to deal with everything that's happened to him is amazing. I would definitely recommend reading this book.

A life-changing true story.

By Tom

I first bought this book after its original release, and it remains the most impactful true story I have ever read. Scott Russell Hill takes the reader on an inspirational journey through dozens of personal spiritual life events - including near death experiences, premonitions, and recalling past lives - and like all good writers you feel as if you are there as his story unfolds. Unlike many spiritual authors today, however, Scott's writing is humble, heart-felt and lets the reader into his own sense of turbulence and vulnerability as he strives to make sense of every twist and turn. A life-changing book that you simply must read.
