Great for Reference or Coffee Table

By JBoam

I have been collecting pocket compasses for some time. I was delighted to see the publication of so fine a book as Compass Chronicles. It is full of detailed information for the collector and the casual reader as well as the antique store browser (who often purchases compasses without really knowing what he or she has bought). I have identified several compasses using this great reference.

This hard bound book is beautifully done, and will make a colorful and classy addition to any bookshelf or table display. The high quality photos of compasses and the fine reproductions of old prints make this book a pleasure to simply leaf through. But don't be fooled into thinking it is simply eye candy. It is a serious reference volume that is well organized and replete with details and explanations. I love it.

Compass Collectors' Bible

By Jaypee

COMPASSIPEDIA, the great online Compass Museum [...] recommends this book to all those who want to learn more about the fantastic story of pocket compasses. Whether you already have one or more old compasses and want to discover their secrets, or you are interested in old instruments in general, this book is for you. It will also be a wonderful gift for your friends.

Must Have Reference

By hconnell

Compass Chronicles is the rare reference guide that masterfully combines its comprehensive, well researched

subject matter with gorgeous visual details making it a showcase piece for display. The author's knowledge is equally met by her passion for the subject. It is well written and appealing for both serious compass collectors and amateurs looking to launch into this fascinating world. Highly recommended.
