A quick guide

By Leah N. Allor

I actually received this book as a gift upon my graduation. I would recommend it if you are looking for a book where you can quickly look up a word or phrase in which you had a dream about and quickly get an overview of what it might mean. If you are looking for something more detailed, I do not recommend this book. Otherwise, it is top quality if you are looking for something simple, and makes a great gift, in my case!

Straight and to the point!

By heavenly17

Again this a product that I first used at a neighbors house. Just by looking at it online it didn't seem like a good buy but because I had already used it, I got it. I like this dictionary because it's easy to use. You look up a word, it gives a detailed description but not too wordy. You do not have to go to another source to decipher what you just read in the book, its a dictionary and therefore defines the word.

Example from the book:

Artist - The dream may indicate that you actually have artistic talents. It may also express "eccentricity" and a desire for more self-expression and fulfillment.

Easy, simple and would recommend.

Good dictionary that has interesting ways of interpreting dreams

By ems

Good dictionary that has interesting ways of interpreting dreams. Some of the pages are folded and pressed together with the printing, which is a bit strange. I will continue to use this insightful book!
