EXPAT IN CHINA: A FAMILY ADVENTURE BY GREG RHODES PDF

At age 40, Greg and Heidi Rhodes kept a rash promise to each other made 17 years earlier, when the naive, mortgage-free expats swore to return to China with their own children. Arriving back in the Middle Kingdom in 2005, they were surprised to find their former home city, Chengdu, unrecognizable. Familiar landmarks and expectations had been swept away by China's rushing tide of progress, replaced by glass skyscrapers, McDonald's restaurants, and a frenetic scramble to get ahead.

Armed with a scant few remembered phrases of Chinese, two unsuspecting offspring, and (sometimes) healthy curiosity, the Rhodes set about learning to navigate their city, and their family, on brand-new terms. Join the family as they toast China with drunken college students and battle a Buddhist monk with inflatable baseball bats. Always honest, often funny and at times poignant, *Expats in China* tells of a year filled with surprises, challenges, and adventures.

Millie Moore's Review

I found the book quite interesting although I would fall into the group who asked "why China". I think it was extremely brave of Greg & Heidi to introduce their children to China. The everyday things we take for granted must have been eye opening to them. I felt the book was well organized and while it wasn't riveting it kept me interested. After reading *Safely Home* by Randy Alcorn about China, this book altered my vision of China to some extent. I admired how well the family adjusted, offered and received the gift of friendship. I felt the family were true ambassador's of good will and not judgemental of the people or the government of China.
