Robert Newton Peck does not believe in writing stories or novels. He lets his characters write them, and in Fiction Is Folks you'll learn the tricks of his well-polished trade: How to use yourself as a character and when not to; How to write about people the way they actually are - instead of how they ought to be; What homework you need to do on each of your characters - and how to use the results; "Narrative Drag" - what it is and how to cure it; Where to find buzz words and how to use them to your best advantage; How to turn what bugs you into a salable idea; Why you should invite trouble into your story. Peck employs the talents of such characters as Mr Fido Fastbuck, Mona Miniver, Mrs Surly, Bathless Bart, and T J Bigdesk, all of whom play their roles to the hilt as you learn what characters are all about... and how the right characters make your story unforgettable to your editor and to your readers.

Get this rare gem!!

By I'm Me Me

Although this book is out of print, I stumbled upon it at a local library and stole it! \$30 in fines later I decided to do the right thing and return the book, only after finding it online and buying it!

What I love about this book is Peck's writing style. This is certainly not a book to fall asleep to, neither is it the BORING CUT AND DRY book that gives you long worksheets to fill in about your character - it entertains and dazzles you while giving you practical advice that I have not seen in many of the other books that I stole from the library.

Just to tantalize you, I will give you a few points he touches upon in the book. One is giving your hero a tool. This tool defines the character, it is something they carry with them, something they care about. This is something they use professionally as well. Think of it as the accessory that would go with your character if he was an clam-shelled action figure. Peck shows us how to write the character as he is using his tool to show the reader his personality.

Peck also devotes chapters to types of characters and how they can stir up your story soup. You have the

show-off, the teacher, the ghost and the nobody kid. These are common character types used in some of the most successful fiction out there.

Stop reading right now, buy the book and feel both enlightened and entertained. I told you to stop reading . . . why do you persist on reading? Hurry and buy this book!

Excellent, I used it to write An Act of Self-Defense

By Erne Lewis

Excellent, I used it to write my first novel An Act of Self-Defense (Based on Average it is now 11 out of 170,000 thrillers). I borrowed the book from the Kaneohe Library in 2003 and it made an enormous difference in my novel. The author, Mr Peck, describes how to first get to know your characters by imagining their earlier lives, their mannerisms, their abilities or inabilities with tools, etc. I know I am forgetting a great deal but that is why I have just purchased the book for a second reading. I expect it will help me with my current novel.

If you aspire to write novels I strongly recommend Fiction is Folks.

The Funniest Book on Writing You'll Ever Read

By A Customer

Whether you ever turn out a bestseller or not, you'll love this book by Peck. He uses humor to teach you all you need to know about bringing your characters to life. In between his thoughts on "What if Socrates had played football?" and his imagined affair with his leggy secretary Illicita, you'll begin too see just how much fun it can be to make your people pop.
