"From an early age I have always been fascinated by the written word and the mood and atmosphere it creates for a reader; especially those books that affect me and transport me to some far-off place. These are the elements I strive to create in my books. My books in many ways record what most affects me: my feelings and experiences with family, friends, and those I have run into on my life's journey. My hope is that in my books you will find something that touches you, something which will resonate in your soul and remind you that you are strong and can overcome anything, especially if you have the support of loving friends and family." - Ayr Bray

Gripping!

By Jae

This book is nothing short of amazing! Gripping from the very beginning and it just gets better. It's one of those books that will have you on the edge of your seat wanting to read more! Would recommend to everyone as a must read!

Really?

By IReadTooMuch

This just wasn't what I expected from all the 5-star reviews. Everything was a bit too unrealistic and easy for the characters.

#### **\*\*Possible Spoilers\*\***

Heroine gets shot in the chest along with other terrible injuries? No problem. Bad guys are chasing the group, but the protectors always know about it just before it happens. The bad guys are quickly eliminated just because the male heroes are so awesome at everything (eye roll). Not to mention the main hero has been obsessed with the heroine ever since he saw a picture of her as a 5 year old...yeah, that's not creepy at all. Of course the previously-uninterested-in-forever heroine falls in love with the hero after a month or so (double eye roll). I've read much better romantic suspense novels.

great read

By Jamie Lynn

This book was all about building up the storyline and characters. Than great action, loss and struggles. Everything built to the great ending. This is one book were it wasn't about the sex all the time. Had a great hero. And the characters got to know each other.
