"The detail and complete step-by-step instructions and pictured examples were invaluable in getting me started." -- an anonymous Swiss grower

## **About the Author**

Cervantes is a world-renown expert on indoor, outdoor, and greenhouse cannabis cultivation. He puts more than thirty years of expert cannabis growing knowledge and hands-on experience at your fingertips with his books, articles, photographs and videos. His expert advice has guided millions of growers worldwide to apply simple, effective horticultural techniques to high-yield closet, basement, backyard, medicinal, and guerrilla gardens. Cervantes solves growers' problems with definitive clarity. Cervantes finds the time to contribute feature cultivation articles to a dozen European cannabis magazines and speaks at international cannabis fairs in Europe each year. With more than a million books sold, you can also find his books in French, Spanish, Russian, Italian, & German.

Sweet Home Nanavon

By nanavon58

was very helpful. I liked the fact of it being written in common sense. Language I could understand, and not having to get the old dictionary out continuously. Enjoying the book very much. Thank You, Jorge Cervantes

[aweful]

By A Customer

This is probably the most ill-formed book in general I have ever read, not to mention the worst grow book, period. The illustrations are CHEESY.

The photographs are of poor quality, you can barely discern them. The information is general, contradictory, unorganized... I wouldn't trust a thing in it, which is strange because Jorge Cervantes is a genius, and his previous publications prove his skill. But this book is a no-no. Go for another, and don't be afraid to spend the bucks. You want climate matched with plant variety with specific feeding instructions, and plenty of do's and dont's. If your info is poor then your fruit will suffer.

Great outdoor marijuana growing ideas

By Leonard E. Green

This is a very good marijuana outdoor grow book that is packed with interesting ideas on how to grow marijuana outside. If you prefer growing the way that mother nature intended, then this is the book for you. This book also have great ideas about how to bud early in an outdoor environment, and it has great tips on guerrilla growing! I enjoyed it, and so will you.
