An Explicit Erotica Story

Nancy is in a bind. She's been offered a wonderful opportunity to finish her studies in England, but to do so, she'll need to get out of a commitment she made to Carol, the boss who's done wonders for her during the course of her college career. She's nervous and willing to forgo the opportunity if Carol won't let her out of her promise. Carol's willingness to let her off the hook delights her, and the price—her first lesbian experience—intrigues her. She's about to discover that not all lovemaking is awkward fumbling attempts by immature college boys to get inside her pants.

Warning: This ebook contains very explicit descriptions of a first lesbian sex experience and includes lesbian seduction, oral sex, and boss sex. Only mature readers who won't find that content offensive should read this story.

Here is a preview:

I was still a bit in shock, but all of the idle curiosity that had flitted in and out of my college years reared in my mind. Carol was beautiful. She was about ten years older than me with jet black hair and deep blue eyes. She said she got both from her Irish parents. She also had the kind of body everyone at the college would have killed to possess. I bit my lip again and asked, "When? Where?"

She smiled, "Right now. In my apartment upstairs."

I started trembling, and part of me screamed inside of my head to walk away, but I didn't. Instead, I said softly, "Okay."

She smiled and stood. She extended her hand and I took it and let her lead me behind the bar and up the staircase until we stood at the door to her apartment. There, she took my face in her hands and kissed me.

The suddenness of it made me stiffen, but as her mouth lingered on mine, I began to relax. It was so different from kissing a man. Carol was soft and took her time exploring my mouth with her tongue, and though she grew more urgent as we stayed together, it never felt like the rough pressure of a boy anxious to get in my pants. I say boy because, really, my experience with sex was pretty much limited to my high school sweetheart and one quick college fling that I soon realized I didn't have time for if I wanted to make the most of my college career while working to keep from going deep into debt. So, Carol's kiss soon elicited a response from my body.
