NAUSEA BY ED KURTZ PDF

Since the night he made an ill-advised decision to commit a pair of revenge killings, Nick has made his living as a professional murderer. Early on, he dispensed with guilt or emotion. But after a routine hit gets messy, Nick gets sick and the conscience he thought he'd killed, along with dozens of other marks, comes creeping back into his brain.

Now Nick's profession and life are on the line, and he has begun stalking a perfectly innocent couple to see if he can snuff them out without the slightest hint of remorse...or if the humanity he worked so hard to suppress is making up for lost time.

A dark noir novel about human connection and repentance, Nausea is the story of a sociopathic killer in a war with himself, a war in which the lives of an uninvolved couple hang in the balance.

A suitably gritty crime noir

By Frank Errington

The new crime noir novel from Ed Kurtz is certainly long on style, even if I felt it was a bit lacking in substance. I think that may come from a lead character that I just couldn't connect with. Nick Drake is a killer, a low-rent hit man who fell into his line of work, more or less, by accident.

Nausea is told in two separate story-lines. The current timeline and one detailing the events which lead to the early years of Nick's, now, long time profession.

The writing is solid as is the way the story is told...

A few minutes later he ground the butt under the heel of his boot and narrowed his eyes at the purplish ribbon of the gathering dusk. The air was getting a bit nippy now that summer had ended; even this far from town he could smell woodsmoke. It was an odd, familiar smell, a comforting one. He gazed at the shooting stars made by the headlights of the semis on the freeway and wished he could vomit again."

Nausea is a suitably gritty tale. The writer does an excellent job in creating atmosphere and there is definitely a solid story here. It just wasn't one I found to be particularly compelling. I much preferred his previous release from Darkfuse, Angel of the Abyss.

Nausea is available now in both paperback and e-book formats from Darkfuse publishers. If you subscribe to Kindle Unlimited you can read it at no additional charge. Also, if you are an Amazon Prime member you can read it for FREE through the Kindle Owners Lending Library.

Recommended.

Ed Kurtz is the author of Angel of the Abyss, The Forty-Two, and A Wind of Knives. 2015 was a year of personal tragedy for Ed. 2016 begins with a new job and a new life in Minneapolis, MN. I wish him nothing but the best and look forward to his next novel.

Nausea. Can you stomach it?

By Andreya

Nausea is the second book that I have read by Ed Kurtz. Although Angel of the Abyss is still my favorite by him (and one of my favorites in general), I rather enjoyed Nausea.

The book starts out a little slow and I wasn't sure I would like it until around 20% on my Kindle. From there, I can't remember keeping track of how far along I was. I also wasn't sure about a puking hit man, but somehow Kurtz pulls it off - with a lot of vomiting - but no hiccups.

Nick is a cold and ruthless hitman, who does whatever it takes to get the job done. Until one day after a hit, he pukes his guts out. From then on he can't seem to stomach - literally - the job he has done for the last almost twenty years. Determined to prove that he hasn't gone soft, Nick decides to put his own hit out on a random young couple he happens upon.

Can you stomach Nausea? You may want to read this with a side of Tums, but you will be glad that you did. Ed Kurtz may be a little sick but he's never boring and writes a damn good story.

I received a copy of this book from NetGalley/DarkFuse in exchange for an honest review.

Well Done Thoughtful Thriller--Highly Recommended

By Chris McCaffrey

I received an advance review copy of this novel from the publisher (Darkfuse) through NetGalley in exchange for an honest review.

I have been reading Darkfuse publishing titles for a couple of years now and can say that they are a reliable source of quality horror and crime/noir. Their output is usually of the literary variety, at least as much or even mostly about characters as about the plot/action. Nausea by Ed Kurtz is no exception. I also enjoyed his prior Darkfuse release, Angel of the Abyss.

Our protagonist (Nick Drake) is a hitman. It isn't just his profession. It is his life. His conscious existence is spent moving from one named target to the next. No outside life. No one waiting at home. No time for thought outside of the current target. When he thinks about his favorite movies he can only remember films from his childhood. He hums tunes from the Nat King Cole and Johnny Mathis. His forward development as a person stopped when he took his first contract.

When you think of a hitman your mental image is of a sociopath with ice in his veins. No thought beyond the hit. No emotions. Our protagonist is aware of this model as well and he tries to convince himself that he fits this bill and for the most part he has succeeded. Problem is that it isn't working anymore. He calls himself a

sociopath, but it is clear that he is being torn up inside by conflict. Sociopaths don't worry about the state of their soul or if they even have one. Sociopaths don't obsess over the lives of the people they just murdered. Cold as ice hitmen don't throw up after a killing. After 35 hits he is falling apart, emotionally and physically.

Structurally, the novel tells two stories at the same time. Nick Drake's transition from 19 year old drifter to contract hitman and the story of how he falls apart years, and many hits, later. The beginning and the end. It works very well. Through the story the reader sees how Nick's existence is basically shaped and governed by the will of strong women: his boss (with the Freudian moniker "mother") and a psychotic repeat customer (in that she frequently utilizes his services). It is evident that Nick's life has been shaped by his struggles against the powerful people that control him and his inability to escape their dominion over him. His struggles for independence and identity provide the depth beneath the surface of this fast paced and gritty noirish thriller.

Highly recommended. 4 stars.
