Jessup](#) can accompany you during that time. It will not make you feel weary. Besides, this means will additionally boost your life quality.

THE CASE FOR THE UFO: UNIDENTIFIED FLYING OBJECTS BY DR. M.K. JESSUP PDF

This is the first ever reprint of the book that brought the entire legend of the Philadelphia Experiment into the public sphere, and created controversy for decades: *The Case for the UFO!* Why has this book been suppressed for so many years? It is a well-reasoned review of the UFO record by an eminent astronomer, mathematician, and archaeologist, Dr. M.K. Jessup. His conclusions are breathtaking and incredible, but inescapable.

Description from the original dust jacket:

Flying saucers are not new! For thousands of years, men have seen mysterious objects in the skies. Now, a prominent scientist proves that unidentified flying objects originate here, on Earth.

If you have ever wondered about the things today's scientists do not, will not, or cannot explain, this audiobook is for you. Such questions might be:

What is the hidden meaning of the comet's tail?

What caused the "Devil's Footprints" of Devonshire?

Why are we wrong to think of space flight only in terms of rocket power?

How was a soldier "teleported" from the Phillipine Islands to Mexico City within one hour?

What force lifted 1200-ton stones in ancient Peru?

How is acceleration achieved by UFOs?

What caused the disappearance of the crews of the SS Sea Bird and the Marie Celeste?

Was the "secret" of space flight known 50,000 years ago?

What is the strange truth hidden in the ancient ruins of Baalbek?

And finally, and most importantly: Are the UFOs friend, or foe?

This is the original edition of *The Case for the UFO*, which does not include the scrawled "annotations" of the infamous Carlos Allende (who may or may not have tormented Jessup into committing suicide). You will find this version much easier to understand than the Varo Edition, and probably much more meaningful.

- Sales Rank: #97850 in Audible
- Published on: 2014-10-03
- Format: Unabridged

- Original language: English
- Running time: 549 minutes

5 of 5 people found the following review helpful.

interesting read.

By Phil Oates

good read and interesting opinions of what has happened in the past. I also believe we have been visited, there is to much evidence around the world to just pass this off as fiction.

4 of 4 people found the following review helpful.

A must read for anyone interested in UFO phenomenon

By Ivik

The book is great, but the history surrounding it is one of the most bizarre stories ever. Gray Barker's preface unfortunately does not contain all the details. But it can be found in other sources, like e.g. Joseph Farrell's book *Secrets Of The Unified Field* and of course on the Internet.

6 of 8 people found the following review helpful.

A Book Ahead of It's Time, but The Notes Were VERY Annoying

By Richard Allen

The title pretty much says it all. I found some of the work done in the original work interesting. It gave me the feeling that the author was ahead of his time. The biggest issue I had was all the side notes that were added. I thought maybe it would be interesting to have them there which is why I bought the book, but they were such a huge distraction that I ended up putting it down over and over again till I just got sick of it.

While the book and the material by the original author was quite interesting, I would recommend trying to get a copy of it without all the extra notes. It felt kind of like trying to read a book, but every 45 seconds or so someone would come over and poke you in the arm just to distract you. After 10 minutes of that, I just gave up on it.

The Original work is 3.5 / 5

This version is 2.2 / 5
