Review

This amazing story will make your eyes pop out of your head in disbelief. This is a cautionary tale, but also a real champion's one also, and stands as a testament to the power of positive thinking even in the worst situation in today's hard, cold world. A Must-read for anyone looking for an inspirational women's story with real themes to be discussed right now." Self Publishing Review, 5 Stars

Review: **The High Price I Had To Pay** by Jamila Davis ★★★★★Posted by: Naka Jackson January 29, 2016 in Book Reviews, Lead Story

If you are not already privy to the race/class imbalance of the USA, this amazing story will make your eyes pop out of your head in disbelief - if you are, like most of us, this tale is just about the seal on the deal. A 25-year-old woman without a college degree at the time, gets accused of bringing down Lehman Bank for millions of dollars. Yes, actually breaking a huge investment bank. Her male, white bosses get paltry sentences while she gets 12.5 years in jail.

Jamila Davis, an African American from New York, was seen all over the news, her mugshot plastered wherever newscasters could get it. The FBI testified to Jamila's full guilt, and had the court sending a mother of young children to prison for their entire remaining childhood.

This memoir penned by Davis herself is her story: how she became embroiled in a situation and then the court case that ensued.

Jamila admits what she did do: something of a flip in a loophole for properties owned by rich and famous rappers and the like. She lived the high lifestyle in a beautiful apartment with an elevator in the middle and had a fleet of cars, jewels, and more. But she was not being honest, and this caught up to her - she is contrite in this. But to award her such a sentence for a white-collar crime, and to demonize her in court is clearly not justice. Her law team failed her, one even killing themselves.

Talking about overincarceration and social issues for women such as herself, Davis has gone on to be the unique inspiration for her family, and for many other incarcerated women. She has started a publishing imprint with her parents, Voices International, and speaks to inmates about how they can heal their lives, and survive jail. Her son has been inspired to create a very successful celebrity clothing line to push himself

through college. Her daughter writes amazing motivational prose. Maybe Jamila's kids would have been this way anyway with this intelligent, word-savvy writer for a mom, but it's a testament to her remote parenting skills all the same.

While maybe the end of the book speaks too personally and emotionally about NJ Governor Chris Christie and the way that he supported Jamila's incarceration, she has a point. The Old Boys' Club is alive and well in New York State, and there's no justice in sight for most women of color accused of non-violent crimes in America if they can be made a scapegoat. Lack of resources compared to her counterparts made it easy to pin it on the younger and less experienced defendant here.

This is a cautionary tale, but also a real champion's one also, and stands as a testament to the power of positive thinking even in the worst of situations in today's hard, cold world, and to be honest, shows that America's interior race relations fundamentally have moved very little in three hundred years. A must-read for anyone looking for an inspirational women's story with real themes to be discussed right now.

Davis*](#) could be a referred book that you can appreciate the solution of life.

THE HIGH PRICE I HAD TO PAY: SENTENCED TO 12 1/2 YEARS FOR VICTIMIZING LEHMAN BROTHERS BANK BY JAMILA T. DAVIS PDF

The High Price I Had To Pay is a captivating real-life story that reveals another aspect of the inside fraud perpetrated by Lehman executives that has yet to be told!

Years before the 2008 Financial Crisis, a major epidemic of mortgage fraud surged throughout the country. The FBI geared up to combat the problem, imprisoning thousands who alleged to have victimized Wall Street giants, such as Lehman Brothers. Hidden safely behind the auspices of being a "victim," savvy Ivy League bank executives created additional fraudulent schemes to further their profit. Utilizing their "victimizers" as scapegoats, the bankers' clever plan went undetected. Consequently, the real architects of the massive fraudulent lending schemes escaped unpunished. And the "small fries," who the bankers blamed, were left to do big time!

This illuminating synopsis by author Jamila T. Davis, who is currently serving a 12 ½ Year sentence in federal prison for bank fraud, is shared from a unique standpoint. Davis was labeled by Lehman attorneys as the 25 year old mastermind who devised an elaborate mortgage scheme that defrauded their bank of 22 million dollars. Her shocking story captures the inside tricks of Wall Street elite and takes you up-close and personal into a world driven by greed and power.

Davis' story will leave you amazed and make you think. Have savvy Wall Street executives, such as Richard Fuld, been able to out smart the world? And while these executives escape unpunished, is it fair that "small Fries," like Davis, are left to do big time?

Awesome True Story....

By Jose Francisco

Having knowledge of the facts of Jamila's case, I can assure you once you pick up this book, you will be shocked at how Lehman Brothers was the catalyst that almost brought the United States to its knees. However, as big and as powerful as they were, they shifted the blame of their actions to multiple individuals, one of them being Jamila Davis. When you read the book you will be able to see how the pieces of the puzzle fit into place on the behind the scenes look at the financial crisis of the United States and how big banks washed their hands with individuals like Jamila Davis. I praise Jamila for having the courage to write her book notwithstanding her incarceration.

Awesome read...

Fascinating expose on Lehman Brothers fiasco

By TFLReader

I definitely remember all of the controversy surrounding the "mortgage crisis" less than a decade ago and the number of people who ended up going to jail for supposed white collar offenses. There were undoubtedly people who got away with plenty back then and author Jamila T. Davis brings a lot of this to light in her "The High Price I Had to Pay". The fascinating story of her days in the world of real estate and investments and what lead to her eventual conviction and imprisonment for bank fraud. It's not hard to believe, just

difficult to stomach, that many of the heavy hitters never even received a slap on the wrist. Great read.

The High Price I Had To Pay

By Meda

This is an emotionally great read. It explicitly tells poignant details of how a young woman took a wrong turn in life and evidently not only paid the price, but paid an extremely "High Price". Jamila Davis basically "took one for the team". I've heard of "doing the time for the crime", but it seems the system has chosen to make an example out of this lady who is currently incarcerated. I commend Ms. Davis on writing this book and painting a well defined, transparent, yet horrifying portrait for young women of our new generation to visibly and mentally experience beforehand.
