So, the initial you get it, the first you will certainly get all positive about this publication The Rock Says... By The Rock, Joe Layden

Amazon.com Review

Hot on the bleeding heels of Mankind's *Have a Nice Day!* comes another memoir by a bad-guy character World Wrestling Federation fans love to hate, edited by the same prose coach, the clever Jeremie Ruby-Strauss (and coauthored by Joe Layden). Dwayne Johnson, a.k.a. the Rock--who calls himself "the People's Champion," affects an arched eyebrow to convey entertaining menace, and coins catch phrases like a standup comic--gives you plenty of colorful, jumbled action photos and the growling accounts of staged mayhem that made Mankind's book a bestseller. But his story is more interesting than that of Mankind, his occasional ring rival. The noisy action chapters alternate with passages of more reflective conventional autobiography: the Rock is a third-generation pro wrestler, and his book amounts to a history of the sport. His grandpa, High Chief Peter Maivia, was a Samoan important enough to be buried in Diamond Head's crater, and his dad, Rocky Johnson, was George Foreman's sparring partner and the first African American World Wrestling Federation Intercontinental champ. The Rock is candid about the battles his family faced outside the ring: the marriage-testing road lifestyle, his dad's most important win (over the bottle), and the author's own dangerous temper. There's something touching about the Rock's unpromising debut in his uncle Tonga's old trunks, in his reverence for his elders--and something scary about his reaction when he thinks people lack such respect.

What, you say? You'd rather hear about the Rock's "schmozz" (free-for-all) with Mankind, or Faarooq and the interracial Nation of Domination, or that Budweiser-popping piece of trailer trash Stone Cold Steve Austin, or the Undertaker, whose skin is "the color of bad meat"? You want to hear how he started out sleeping on a pungent mattress retrieved from a garbage dump and wound up wearing Versace shirts and chatting up Gennifer Flowers on TV at *WrestleMania XIV*? You crave the secrets of the Frankenstein, the Gorilla Position, Jake the Snake, and Mankind's Mandible Claw (a dirty sock he shoves down opponents' throats)? That's all here, too. Just hop in the ring--the Rock will show you around. --Tim Appelo

Review

"The Rock tells his story with humor, honesty, and not a little trash talk." -- --Chicago Tribune

About the Author

In addition to his home in Miami, where he lives with his wife, Dany, The Rock has a permanent suite at Smack Down Hotel, on the corner of Know Your Role Boulevard and Jabroni Drive. He is the youngest

champion in World Wrestling Federation history.

Joe Layden is a freelance magazine writer and the author of several books, including *All The Rage*, with Charles Haley. He lives in upstate New York, not far from the Professional Wrestling Hall of Fame.

THE ROCK SAYS... BY THE ROCK, JOE LAYDEN PDF

The Rock says. . . "Know your damn role--and shut your mouth!" But that simple catch-phrase, embraced by the millions ñand the millions--of The Rock's fans, can't begin to capture the spirit and larger-than-life personality of the most electrifying man in sports-entertainment."

In this action-packed, revealing and outrageously funny memoir, World Wrestling Federation Superstar The Rock recounts his life in and out of the ring with unapologetic honesty and inimitable style. From his boyhood days traveling around the world with his father (professional wrestler Rocky Johnson) to his years as a football player at the University of Miami to his meteoric rise through the ranks of the Federation, *The Rock Says*. . . chronicles in vivid detail the life story of one of sports-entertainment's most innovative and best-loved personalities.

The Rock recalls his injury-plagued career at Miami and a subsequent foray to the Great White North, where he discovered that in Canada being a professional football player is not exactly a glamorous life. After a few months of sleeping on putrid, stained mattresses that he dug out of the garbage and subsisting on nothing but plain spaghetti, "D.J." ditched his cleats forever and set his sights on the path of his father and grandfather--wrestling.

Performing first in the minors as plain old Dwayne Johnson, then as "Flex Kavana" and later as "Rocky Maivia," he quickly became one of the World Wrestling Federation's hopefuls. But no matter how he tried to get over with the fans, the stadiums greeted him with chants of "Rocky sucks! Rocky sucks!" He then adopted the brash persona of The Rock--a snorting, spitting, snotting, swearing son-of-a-bitch with the soul of a smart-ass comic and the body of an Adonis--and he found his true calling as the "People's Champion."

The Rock will take fans on a guided tour of big-time professional wrestling, a highly competitive business in which a handful of gifted and lucky performers dominate, and all others dream of a moment in the spotlight. He provides a breathtaking, minute-by-minute account of *Wrestle Mania*, the Super Bowl of pro wrestling, including an intimate backstage look at rehearsals with his opponent, Stone Cold Steve Austin. And he discusses in heartfelt detail the loss of his friend and co-worker, Owen Hart.

Filled with genuinely touching stories of love and strife, hilarious anecdotes, inside accounts of an industry whose machinations have long been shrouded in secrecy and dozens of previously unpublished photographs from The Rock's personal collection, *The Rock Says*. . . is--as The Rock himself might put it--"the coolest thing since the other side of the pillow if you smell what The Rock is cookin'."

Comparisons are not inevitable

By R. A. Ward

Dwayne Johnson is not Mick Foley. He's not Arn Anderson. His life story is his own, and The Rock is his own character. So...why are most of these reviewers angry with Johnson (and his book) for not being "Have a Nice Day" or "4 Ever"? I guess they wanted to spend 18 bucks on exactly the same thing they spent to read in Foley's (great) book, or whatever they spent to read in Anderson's book.

Don't get me wrong -- this book is *not* a masterpiece, like Foley's book. But it doesn't s#\$k. In fact, it's a pretty good read. Dwayne Johnson has not done what Mick has, either in his life or in his book. What he has done is tell his own experience, his own life. And I think it's worth it to read it.

Yes, there is a big section in the middle in which he calls his own matches as The Rock speaking in the third person. But why are you all surprised? Did you think The Rock wouldn't show up?

Johnson refers to The Rock as a separate person throughout the book (as he should) because Dwayne Johnson *is not* The Rock. It's a character he plays, a skin he walks into when he works. I think that it is appropriate to give The Rock his own section because of his importance in Johnson's life. However, I do think it could have been cut in half without hurting a thing.

So here it is: The Rock starts on page 163 (Chapter 11) and Dwayne Johnson takes over again on page 227 (Chapter 14) and pretty much stays in control from there. I stuck with it and was not disappointed.

If you didn't stick, you missed Johnson's really cool remembrance of how he worked with Steve Austin to make the Wrestlemania XV match as good as they could get it and how they celebrated afterward. You missed the tribute to Owen Hart. You also missed what Dwayne Johnson thinks of The Rock as a character and a lot of his thoughts on the role of fans in his work.

Judge this book on its own merits. Johnson and his ghostwriter make a pretty good team, and the book is quite entertaining. If you can't handle as much of The Rock as Johnson dishes, skip that section. No one's twisting your arm to suffer through it, and it's very plain where it ends and where it begins.

The Great One

By Roy

The book was as I expected, full of information of the rock, how he became who he is today. He is a good role model to follow from what he is been through. Wonderful book I really recommended, you won't be disappointed I promise.

This is a great book

By Amazon Customer

Despite the hostility from some of the reviewers (which from reading the reviews, I don't think many of the negative reviewers even read the book considering many of them were posted well before the book was released) this is an excellent book. Mr. Johnson has taken a great deal of flak for not being the writer of this book. Some people shouldn't write their own story as their writing skills may not be on par with those of a professional writer. The most important part is the story, which does come from "The Rock". He has led a very interesting life and this book is a must read for all of his fans. I will say, this book is not quite as interesting or as well writing as Mankind's "Have A Nice Day" (hence the 4 star rating) but it is still worth a read.
