Bought this because I wanted something different than what you can find in normal stores (plus I love herb so this was perfect)

I love the variety of pictures. Some simple and cool, some wicked detailed, some really weird, some that I can't even describe. Great variety.

Also- the pages are super thick. Like I used my gel pens and markers that love to bleed and they didn't. Im sure you could use sharpies on this and it would be okay

Anyway- I'm super happy with this purchase. Thanks for thinking of us stoners! :)

What a flashback!

By Saffie

This book is so much fun. Although I am a child of the 60's but no longer indulge, I can't begin to tell you how much fun I'm having with this book. This is one of my "I'm not in a serious mood and I just want to have fun with coloring". I love to use neons on these pictures. The paper is good quality and even though the markers bleed through, the pictures are one sided so it doesn't really matter. Sit back, have a glass of wine or whatever, put on some 60's and 70's music (I prefer rock and roll) and get out your neons. If you go out of the line...it's cool! Rock it baby!

Roll up and color

By Amazon Customer

I got this gift for a friend. The pages are great with a wide variety of funky. Some are simple designs to get the juices flowing and others are real meticulous for the OCD stoner. You cant rip the pages out so you know but they are only one sided so you don't have to worry about bleeding through or you can cut the pages out if you wish.
